The You Matter Marathon

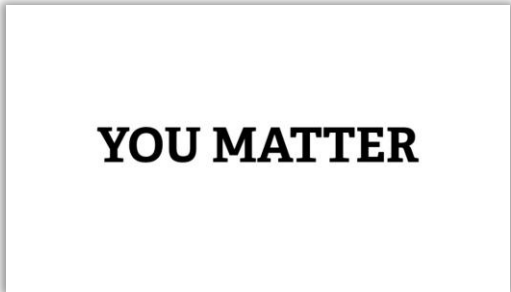

No running required!

The You Matter Marathon is creating and enriching positive connections within and between individuals and communities by inviting people to share You Matter cards with others.

Over 284,146 people from all 50 states and 99 countries have shared more than two million cards.

The results are astounding. 61% of participants report that they achieve a greater sense of gratitude and enhanced connection with others. 51% report enhanced compassion for others; and 50% achieve enhanced levels of personal happiness. The lesson? One small gesture and two small words can help forge connections and spread kindness, compassion, and happiness.
